98th Meeting of the German Physiological Society

Ulm, 30.09. - 02.10. 2019

<http://www.dpg2019.de/>

Call for Scientific Symposia - DEADLINE: 15.01.2019

Symposia are important elements of the scientific program at the Meetings of the German Physiological Society. They are proposed and organized by the [DPG working groups](#), by society members ([DPG](#), [APS](#), [LS²](#)), or by non-member colleagues. Symposia are selected from all proposals by the [program committee](#).

The organization of a successful proposal is in the responsibility of the organizer / contact person named in the proposal (see below) within the general framework set by the DPG council and the [local organizing committee](#).

General guidelines for symposia proposals:

- The scientific quality of the proposed symposium must meet international standards.
- Multidisciplinary Symposia and topics of clinical relevance are welcomed.
- Proposed speakers and chair persons should include male and female internationally renowned experts and junior scientists from all-over Europe and beyond.
- Up to two slots (e.g. for junior scientists) could be let open in the proposal, in order to select suitable speakers from the pool of submitted abstracts at a later point.
- If the symposium gets selected, the organizer has to take care to fill all slots and to communicate speakers & titles in due course to the program committee.
- Organizers should plan their symposium to last max. 120 minutes to fit the overall schedule.
- Organizers are expected to raise their own funding for their symposia.
(In exceptional cases, organizers may apply for a travel grant of up to €400 for high level speakers from Europe or up to €1,000 for speakers from outside of Europe).

Application procedure.

Your application needs to contain the following information in English (please use form below):

- 1) Organizer / contact person with full address, phone number and e-mail address.
- 2) General Topic and Title of the symposium.
- 3) Brief description of the scientific content & its relevance (no more than 200 words).
- 4) Tentative program including chairperson(s), proposed speakers and provisional talk-titles.

Please submit your proposal no later than 15th January 2019 via email to:

proposals_symposia2019@uni-ulm.de

Travel grants are awarded by the DPG council in consultation with the program committee and are subject to the availability of funding.

Symposia / Abstract Topics

1. Ion channels, Receptors & Transporters
2. Cell biology and signal transduction
3. Stem cells / progenitor cells / iPSCs
4. Mitochondria, Metabolic stress, ROS, Aging
5. Cardiac / vascular functions, circulation, and Exercise
6. Pulmonary functions, oxygen metabolism, Hypoxia
7. Renal functions & Gastrointestinal systems
8. Hormones, endocrine system, reproductive organs
9. Blood and immune system
10. Sensory systems
11. Cellular / Molecular Physiology of Neurons & Glia cells
12. Cognitive and behavioural Neuroscience
13. Muscle, bone and joint systems, Motor systems
14. Developmental Physiology
15. Animal models, Methods and teaching in Physiology
16. Others
